

## T2 TRAVEL APPROVAL CHART

On May 6, 2011, Chancellor Reed sent a memorandum to all CSU Presidents regarding CSU Hiring and Travel. You have likely already been notified of this memorandum within your respective divisions.

In the memorandum, in addition to requesting a reduction in travel spending, the Chancellor has directed that each campus implement a process for review and approval of all travel at appropriately high levels and that approval of travel be restricted to cases that serve mission-critical needs. The memorandum goes on to specify minimum levels of review and approval for both in-state, out-of-state and international travel. The following chart has been designed to assist us in implementing these requirements at San Diego State University. These requirements are effective immediately.
